### Motivation

### Problem

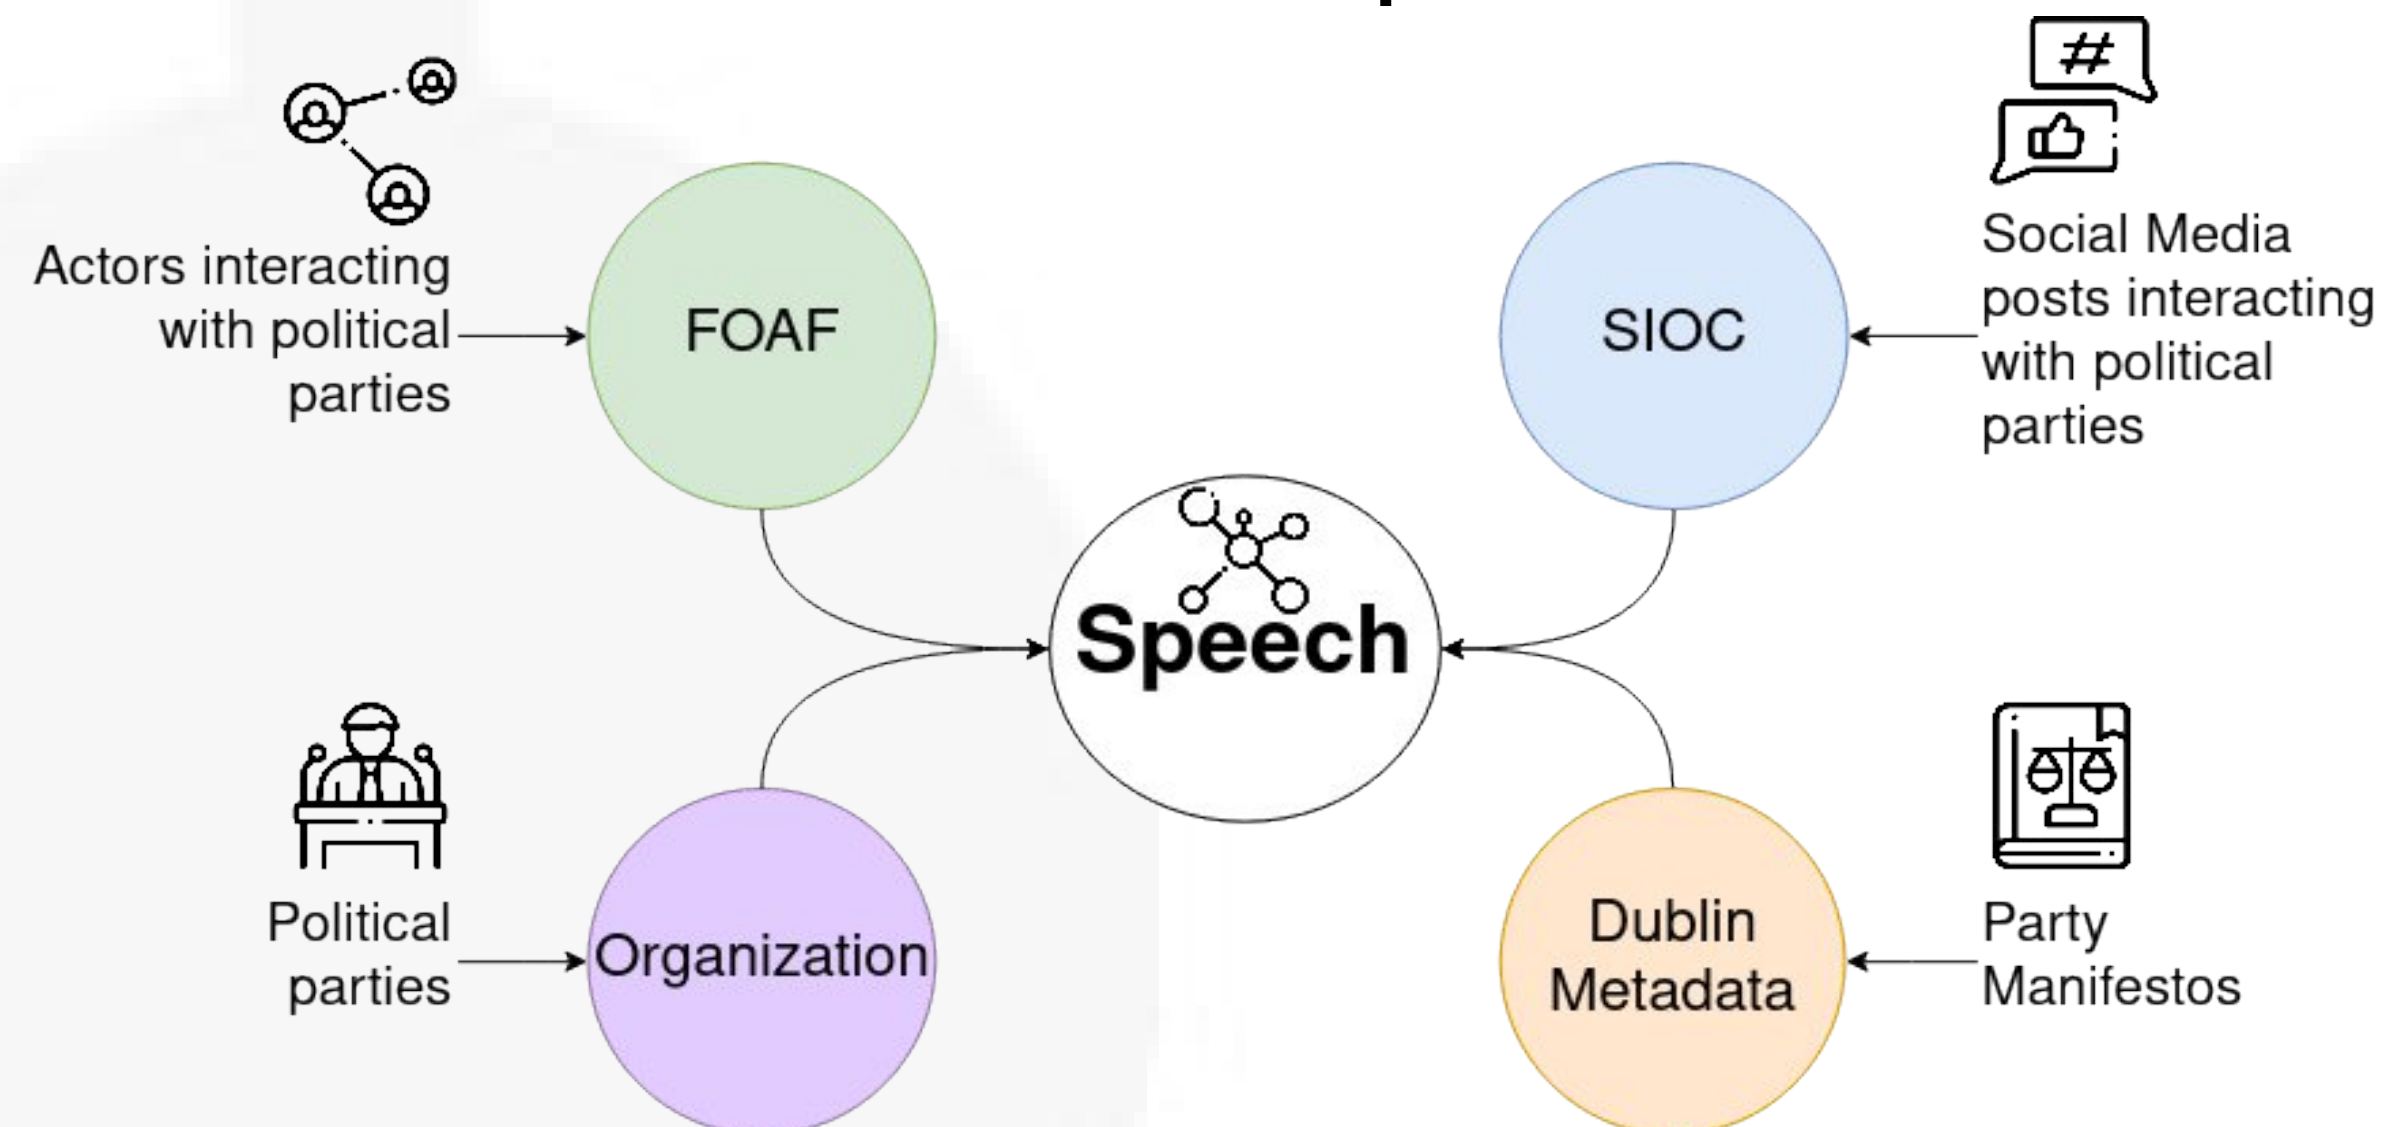

### Goals

### SPEECH

Social media Published Entities Exploitable across channels

### Strengths

### Weaknesses

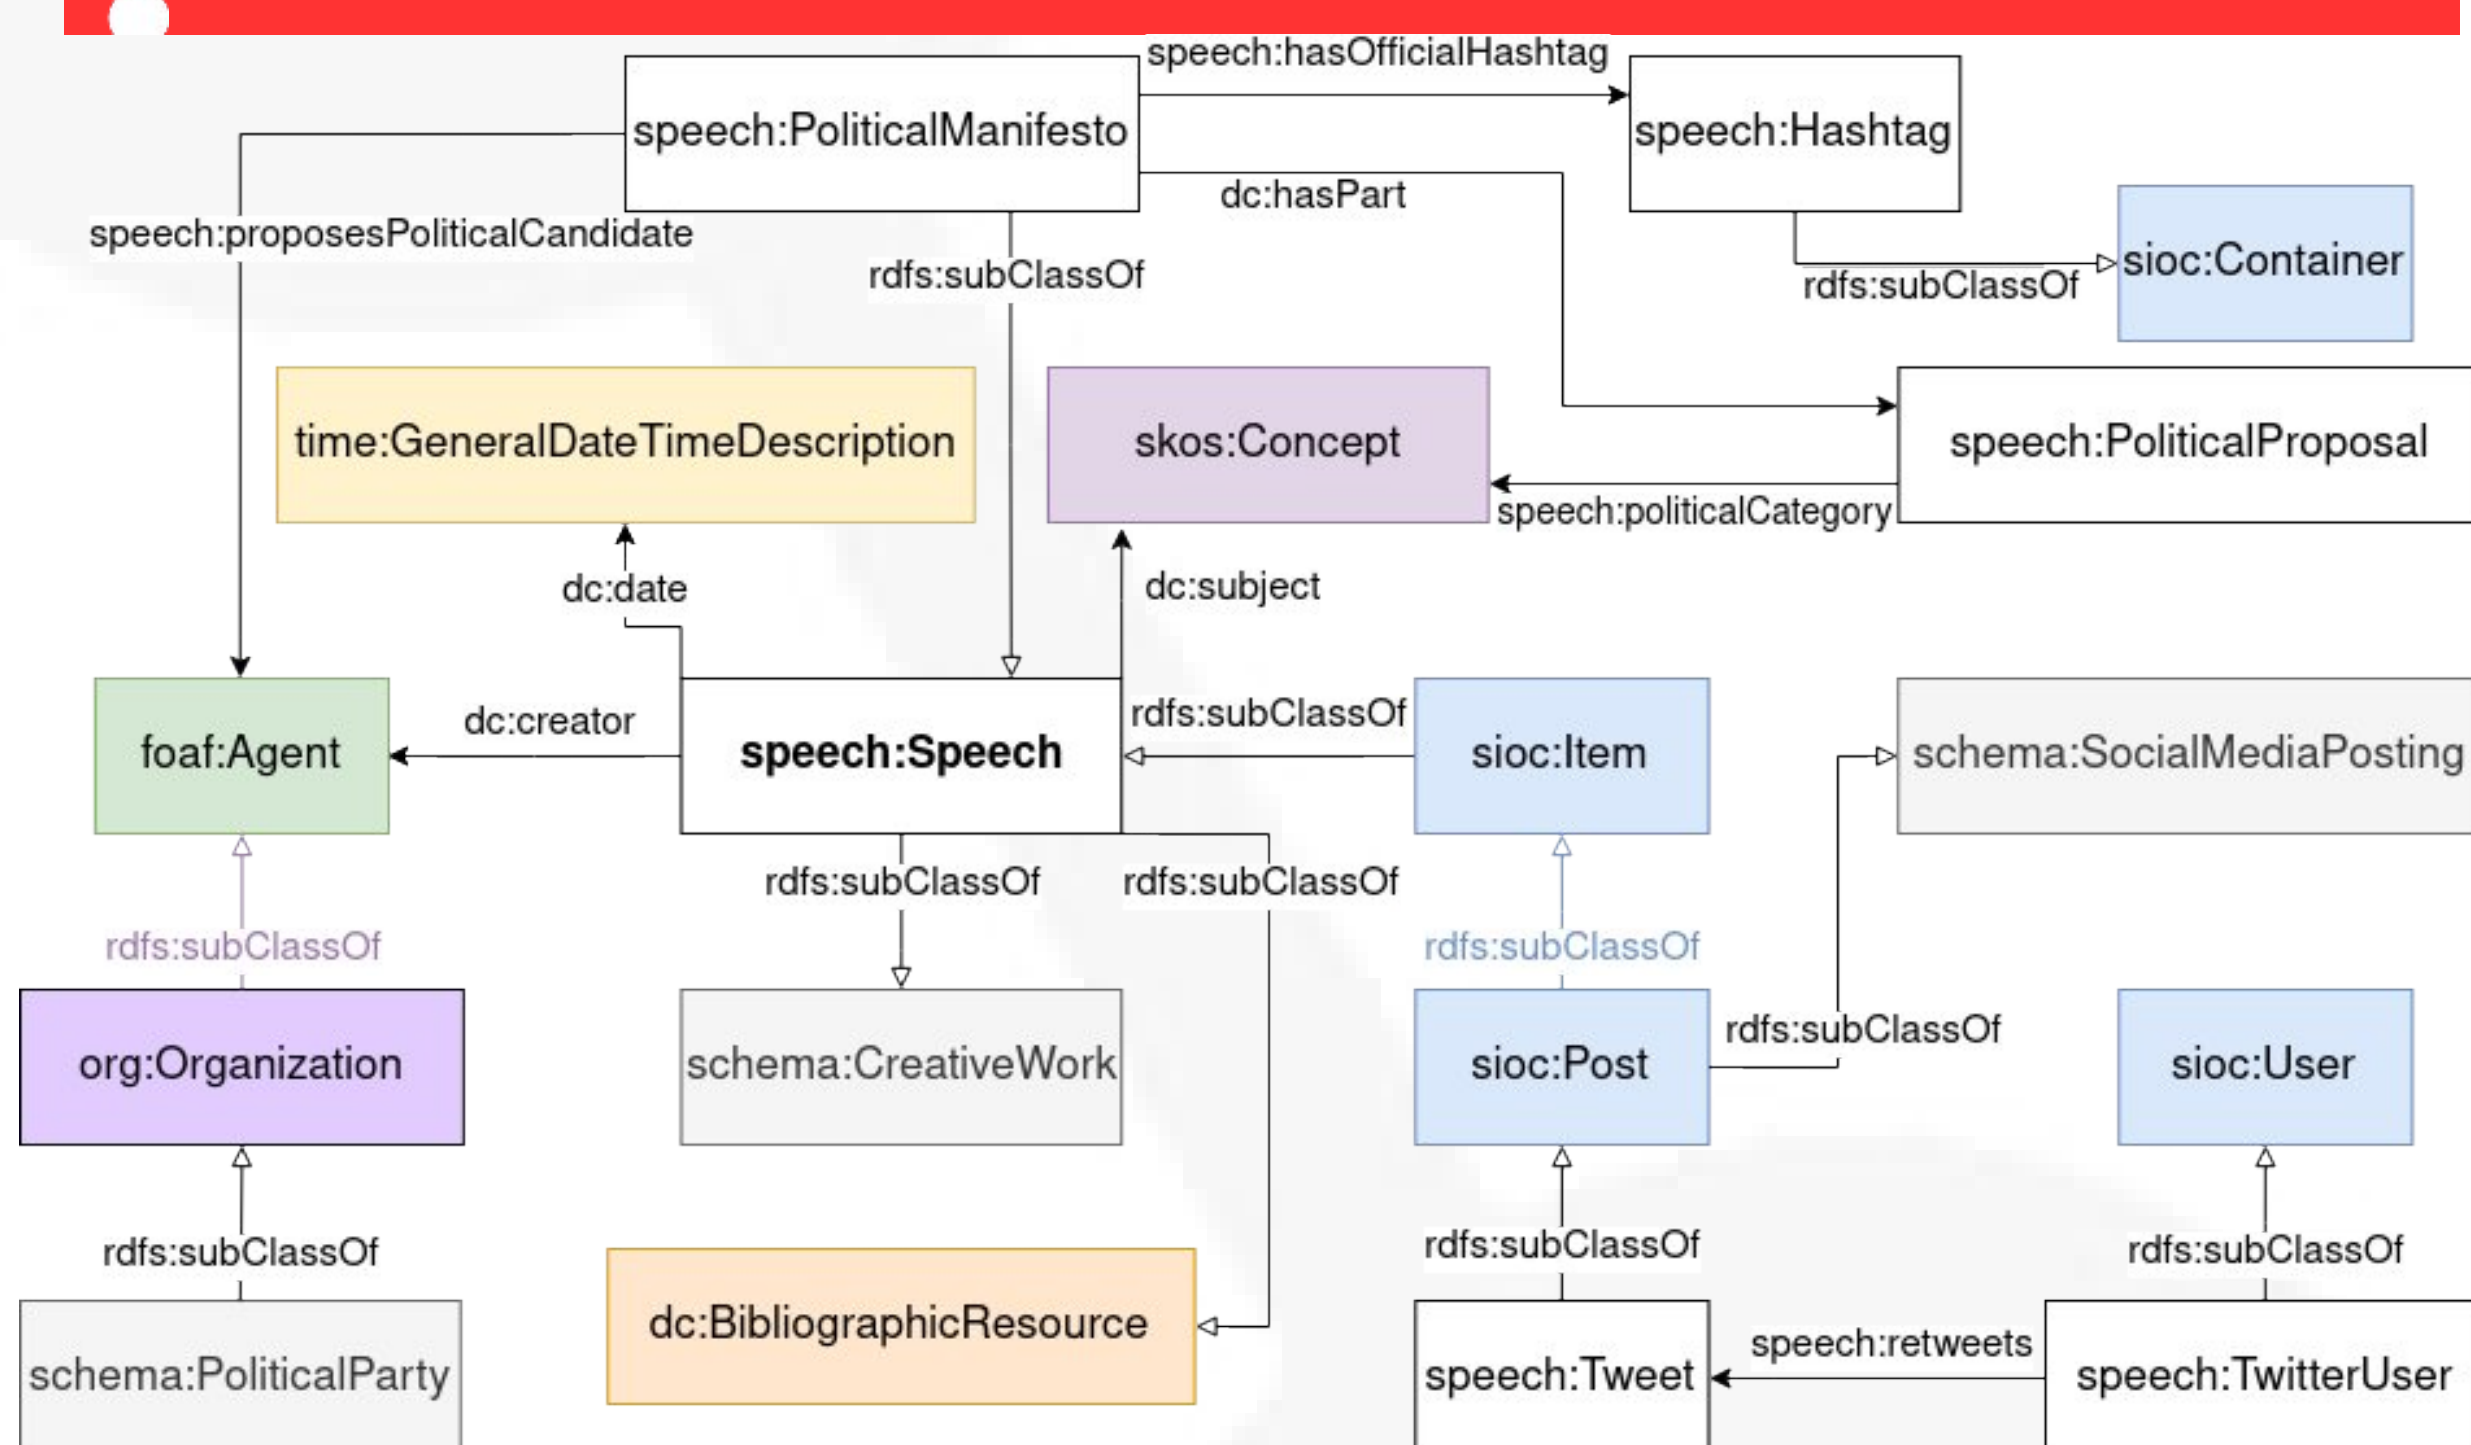

### Opportunities

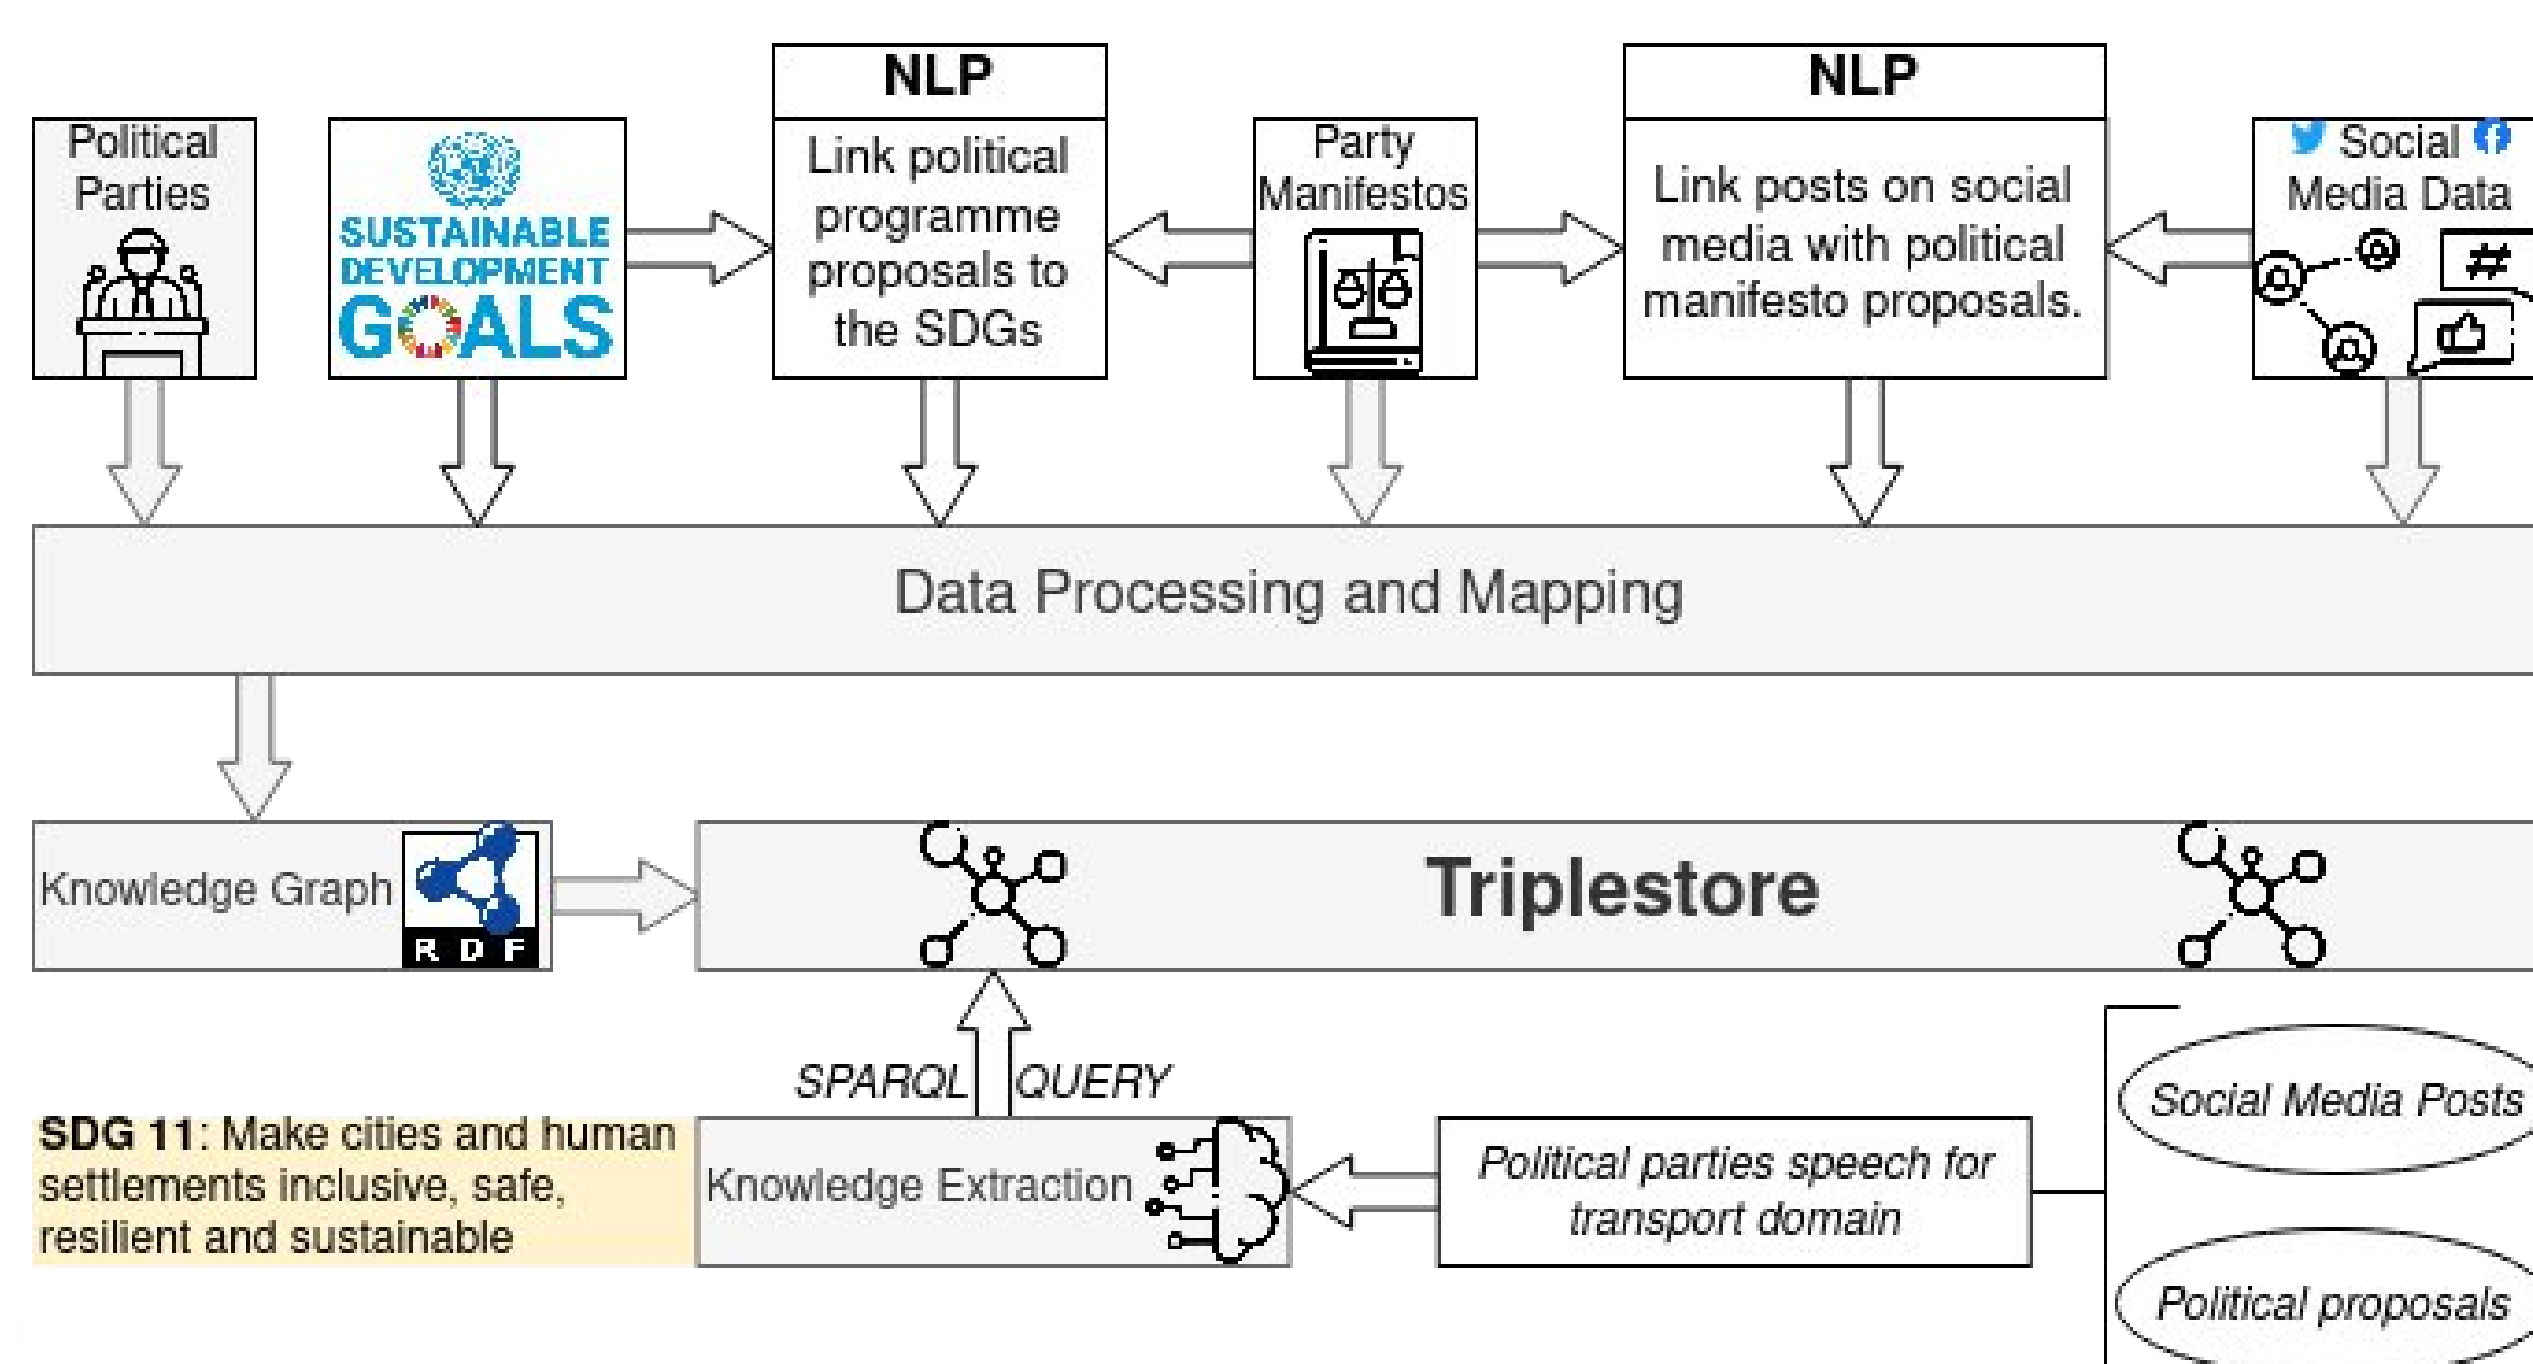

### Threats

### Ontology

### Transport Domain Pipeline

### Collaborate with us

- **Enrich the knowledge graph** with more information (new channels, organisations, documents, etc.).
- **Digitise political manifestos**.
- **Exploit the knowledge graph** (detection of fake news, inconsistencies, events, etc.).

And many other tasks...

### Funding

Project SIGTRANS-UPM: Sistema de Información Geográfica interoperable y semánticamente enriquecido para el análisis y la gestión del TRANSporte público funded by MCIN/AEI /10.13039/501100011033 and by the European Union Next GenerationEU/PRTR
